Spring Collection 2026

A NEW ERA FOR TRU-SPEC

When we set out to rebuild the Tru-Spec brand in 2024, we adopted a clear mission: equipping you for every shift and situation. That's what we believe Tru-Spec exists to do. Over the past 18 months, we've taken meaningful steps toward fulfilling that promise.

We're proud to bring you this catalog—one that reflects both where Tru-Spec comes from and where we're going. Inside, you'll find the trusted products that built our reputation, alongside new innovations shaped by feedback from the professionals and enthusiasts who wear our gear.

You'll see modernized fits, upgraded fabrics, and thoughtful improvements designed to perform in the real world—whether that's a long shift, a weekend in the field, or a day at the office.

In the coming months, expect to see updates to this catalog as more of our new products become available. We've got more great products in the works and we're excited to share them with you soon.

We're here to tell you that a new era of Tru-Spec has arrived—and we're just getting started.

When does fabric become something more?

Is it the stitching?
The features?
The fit?

Or is it the people who rely on it?

At Tru-Spec, **we design for those who show up.**

On the job.
In the field.
Where performance matters.

Every piece we build is cut with intention
and sewn with purpose.

Built smart.
Built tough.
Built to meet you in the moment.

Because our craft isn't about clothing.
It's about the people who wear it.

You deserve to feel equipped for any situation.

And that's exactly what we're here to deliver.

TRU-SPEC®

TOUGH WHEN IT MATTERS MOST.

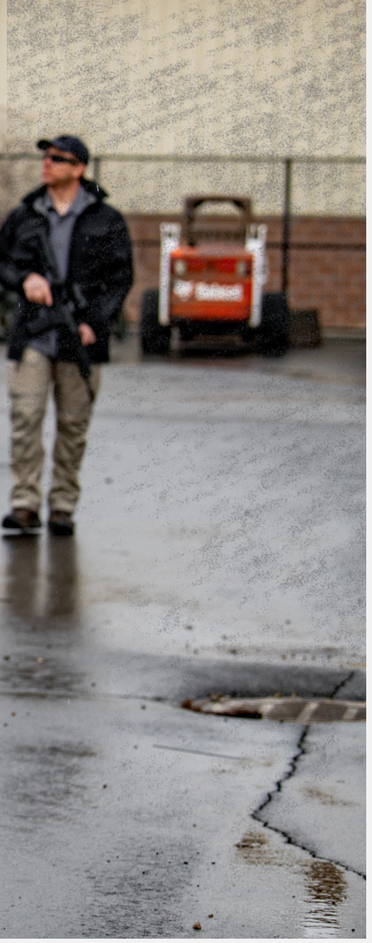
THEY SAY YOU CAN'T IMPROVE A CLASSIC.

WELL....WE DID.

The OTP 2.0 launches a new chapter for Tru-Spec. We wanted to build upon the rich legacy of the brand and deliver a product we could stand on for years to come. That's why we decided to upgrade the Original Pant. We're planting our flag. We're evolving but staying true to our roots. We're modernizing but standing on the foundations of the past. The new generation of Original Tactical Pants is here.



The

ORIGINAL TACTICAL PANT 2.0

Performance Stretch Tactical Pant | $69.95

We've upgraded the classic with a modernized cut and comfortable stretch fabric. The OTP 2.0 is more athletic cut than its predecesor, and the stretch fabric offers greater freedom of movement in active scenarios. We've streamlined the cargo pocketing to build a slimmer silhouette, but retained the ample storage the Original is reknown for. Trust us when we say, you just found your new favorite daily driver.

AGILITY PANT

Athletic Cut Stretch Fit Tactical Pant | $89.95

We felt the industry for tactical and uniform pants had fallen behind in form, function, and features, so we built the Agility Pant to solve that problem. The nylon/spandex blend fabric delivers stretch that perfectly balances comfort and mobility while remaining incredibly durable. Add an athletic, low rise cut and pocketing designed for field use and you've got a workhorse pant that leaves other models in the dust.
